

Fees Table 2016

Fees Protection

Students need to complete an application to set up a Public Trust account preferably during their first week with the School. The School arranges fee protection by lodging the fees with Public Trust. Fees protected by the Public Trust are held in the Public Trust's Common Funds which has a capital guarantee from the New Zealand Government. Full fees are refundable up to 8 calendar days for domestic and 10 working days for international students after the course begins.

The New Zealand Government requires that all New Zealand Qualifications Authority (NZQA) registered private training establishments (education providers) must protect all student fees paid to them in advance. This means that in the unlikely event of the education provider closing before the completion of the student's course, the remainder of the student fees will be protected. Fees protected within a Trust Account enables the student to have the choice to have remaining fees returned or have them paid directly to an alternative education provider.
